## QUICK START

For best results use on a hard flat surface in a large open area or on track sets (not included).

Connect the pump nozzle to the rear of the car. Lift up and push down on the launcher pump as many times as desired. The more you pump it up, the faster and farther the vehicle will go!

Remove the vehicle from the pump and set it down on a flat surface. Then, slightly push the vehicle forward, and it will drive off!
